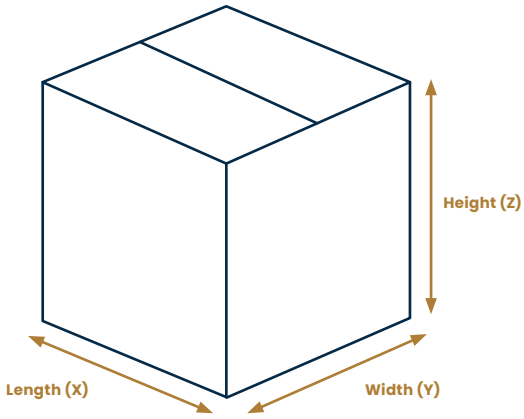
Renewliner

The world's first curbside recyclable insulated box liners, sourced from the globe's most recyclable plastic, PET.

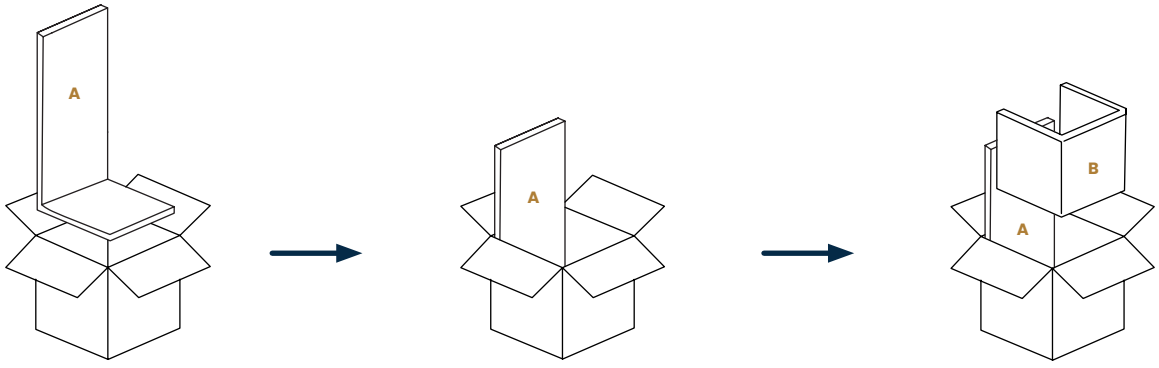
Packaging Dimensions

All written dimensions, when submitted on forms/discussed verbally, must be in the order of Length x Width x Height.



Packout Directions

A and B liners must be packed out in the following order for proper use and efficiency.



Step 1
Place Panel A in Box

Step 2
Leave end of Panel A unfolded until Panel B has been inserted

Step 3
Insert Panel B

Packout Example

Step 1
Place Panel A in box.

Step 2
Leave end of Panel A unfolded until Panel B has been inserted.

Step 3
Insert Panel B.

Step 4
Place refrigerated prescription in bottom center of the cooler box (if not equally aligned, place corrugate separator on either side of prescription).

Step 5
Place corrugate separator on top of the prescription.

Step 6
Place one refrigerated gel pack on top of the corrugate separator.

Step 7
Fill all void space with corrugate separator.

Step 8
Place cooler box lid on top and tape outer box closed.
